**Report on First Multi-disciplinary Endocrine Surgery Grand Round**

The “First Multi-disciplinary Endocrine Surgery Grand Round” was organized by the Department of Endocrine Surgery, Dr. Ram Manohar Lohia Institute of Medical Sciences (RMLIMS), Lucknow, under the aegis of the Indian Association of Endocrine Surgeons (IAES), on 10th May 2025. The central theme of the event was “Hyperparathyroidism.”

The Convener of the CME was Prof. S.K. Mishra, with Dr. Abhishek Krishna and Dr. Sarrah Idrees serving as the Organising Secretary and Co-organising Secretary, respectively.

The event was honoured by the esteemed presence of Prof. Anjali Mishra, President of IAES, as the Chief Guest, and Prof. Pooja Ramakant, Honorary Secretary of IAES, as the Guest of Honour.

Designed with a special focus on young endocrine surgeons, the CME aimed to equip participants with practical strategies to manage and overcome complex cases of Hyperparathyroidism. The event was conducted in hybrid mode, facilitating the participation of over 100 delegates from across India.

The full-day program, scheduled from 9:00 AM to 6:00 PM, was structured into three academic sessions and featured case-based multidisciplinary panel discussions. Nine prestigious institutes contributed to the discussions, each represented by a team of multidisciplinary faculty members. The participating institutions included:

AIIMS, New Delhi

AIIMS, Bilaspur

CMC, Vellore

Madras Medical College (MMC), Chennai

Government Mohan Kumaramangalam Medical College (GMKMC), Salem

SGPGIMS, Lucknow

King George’s Medical University (KGMU), Lucknow

Dr. RMLIMS, Lucknow

Medanta Hospital, Lucknow

Discussions were categorized under five thematic areas:

1. Advanced/Complicated Hyperparathyroidism
2. Primary Hyperparathyroidism with Rare Pathologies
3. Secondary Hyperparathyroidism

**DR. RAM MANOHAR LOHIA INSTITUTE OF MEDICAL SCIENCES,**  
**Vibhuti khand, Gomti Nagar, Lucknow**  
**Department of Endocrine Surgery**

4. Hereditary Hyperparathyroidism

5. Challenging Presentations of Primary Hyperparathyroidism

Each institute contributed actively to the case discussions, making the event an enriching academic exchange and a resounding success. The CME served as a valuable platform for collaboration, knowledge sharing, and capacity building among the endocrine surgery community.
